BRMS for IBM i, including Cloud Storage Solutions for i

Kód kurzu: AS28G

This course covers the features and functions supported by Backup Recovery and Media Services (BRMS). BRMS is an integrated and comprehensive tool for managing backup, recovery, archive, and retrieval operations for a single Power System with IBM i or multiple IBM i systems at a site or across a BRMS Network.The lectures describe how to perform the supported functions when using a 5250 emulation session and also with BRMS Web Interface. Students then have the opportunity to practice in lab exercises what they have learned in lecture.
