

# VMware vSphere ICM [v8] – Hands-On Lab Session

Kód kurzu: VMW\_VSLAB

This intensive hands-on session is designed to reinforce and apply the theoretical knowledge gained in the VMware vSphere self-paced course. Through guided lab work and expert-led exercises, participants will gain practical experience configuring, managing, and troubleshooting key vSphere components.

## Pro koho je kurz určen

Partners who completed the self-paced course

## Co Vás naučíme

- Deploying and configuring ESXi hosts
- Creating and managing virtual machines
- Configuring vCenter Server
- Managing VM snapshots and templates
- Virtual networking and standard switch configuration
- vSphere storage concepts: VMFS, NFS, and vSAN overview
- Host and VM resource management
- Patch management with Lifecycle Manager
- vSphere HA and DRS

## Požadované vstupní znalosti

- Certificate of completion from VMware vSphere: Install, Configure, Manage [v8] self-paced course
- System administration experience on Microsoft Windows or Linux operating systems

## Studijní materiály

Participants will leave with the applied knowledge needed to confidently proceed toward VMware certification and perform vSphere administrative tasks in real-world environments.
