

# Develop, Test, and Run Granite Family LLMs with Red Hat Enterprise Linux AI

Kód kurzu: AI296

Od ledna 2026 je možné za původních podmínek zakoupit pouze prezenční Red Hat školení. Virtuální kurzy (VT) jsou dostupné výhradně v rámci ročního předplatného RHLS Course. Jak si naplánovat virtuální kurz v Red Hat Learning Subscription Course naleznete zde.

An introduction to fine-tuning, serving, and using generative AI models with Red Hat Enterprise Linux AI. Develop, Test, and Run Granite Family LLMs with Red Hat Enterprise Linux AI (AI296) provides students with the fundamental knowledge about how to fine-tune, serve, and use generative AI models tailored to specific business needs. This course helps students build core skills to train models in a secure and private environment. This course is based on Red Hat Enterprise Linux AI 1.5.

Pobočka	Dnů	Cena kurzu	ITB
Praha	3	1 270 €	0
Brno	3	1 270 €	0
Bratislava	3	1 270 €	0

## Termíny kurzu

Datum	Dnů	Cena kurzu	Typ výuky	Jazyk výuky	Lokalita
22.06.2026	2	1 270 €	Online	EN	Red Hat - RHLS Course
21.09.2026	2	1 270 €	Online	EN	Red Hat - RHLS Course
07.12.2026	2	1 270 €	Online	EN	Red Hat - RHLS Course

Uvedené ceny jsou bez DPH.

## Pro koho je kurz určen

- Data Scientists and AI specialists who want to learn more about Granite models and the process of training and aligning GenAI models for specific business requirements.
- Developers with basic AI/ML knowledge or machine learning engineers who are interested in learning how to develop, test, and run AI-based enterprise applications in an enterprise and secure environment.
- System administrators who are interested in learning how to manage the company's hybrid cloud infrastructure to boost the adoption of generative AI and LLMs, while enforcing security policies.
- Other professionals, such as SMEs and domain experts, who are interested in learning how to contribute to the training of secure models tailored to their business needs.

## Co Vás naučíme

- Generative AI Fundamentals: Capabilities, Challenges, Models, and Techniques
- Granite Models For Enterprise Generative AI
- Training Large Language Models with Red Hat Enterprise Linux AI
- Deploying Trained Models with Red Hat Enterprise Linux AI

## Požadované vstupní znalosti

- A basic understanding of AI & ML is recommended but not required.
- Familiarity with the Linux command line.

## Osnova kurzu

- **Generative AI Fundamentals: Capabilities, Challenges, Models, and Techniques**
- Define Generative AI, its importance, benefits, and challenges. Learn to select suitable GenAI and LLM models and techniques, considering their capabilities, use cases, and limitations.

# Develop, Test, and Run Granite Family LLMs with Red Hat Enterprise Linux AI

- **Granite Models For Enterprise Generative AI**
- Describe and understand Granite models, and their capabilities to solve enterprise use cases, compared to larger, closed models.
- **Training Large Language Models with Red Hat Enterprise Linux AI**
- Enable technical and non-technical stakeholders to collaborate in the creation, training, and deployment of large language models (LLMs) optimized for specific business needs by using Red Hat Enterprise Linux AI and IBM Granite.
- **Deploying Trained Models with Red Hat Enterprise Linux AI**
- Deploy, serve, and operate generative AI models trained with Red Hat Enterprise Linux AI.
